GERMANY CONFIDENT; FIGHT RAGES ON

—TONE OF BERLIN DISPATCHES BUOYANT; ALLIES SAY NO CHANGES

KAISER'S GENERAL STAFF FEELS THAT GERMAN ARMIES ARE GAINING BY SITUATION

STRUGGLE ON THE AISNE GETTING BEYOND HUMAN ENDURANCE—BLOODY BEYOND PRECEDENT, SAY THE WOUNDED OFFICERS—TERRITORY OVER WHICH THE ARMIES HAVE FOUGHT IS SCENE OF DEATH AND DESOLATION—BEAUMONT CAPTURED FROM THE ALLIES, SAYS GERMAN DESPATCH—JAPAN MAKES PROGRESS TOWARD REDUCING KIAOCHAU.

(Associated Press service by Federal Wireless.)

BERLIN, Germany, Sept. 19.—(Official)—The decisive and costly attack north of Noyon is progressing satisfactorily. Beaumont has been stormed and 2500 of the Allies captured. The counter attacks of the Allies along the entire front have been easily repulsed. Members of the German general staff, in private conversation, show entire confidence in the outcome of the present situation.

They argue that the German armies are gaining strength, and that the methods of transportation and the commissariat are working smoother and more effectively. They say that the French have "shot their bolt."

London Says No Material Change Made

LONDON, England, Sept. 19.—Official announcement from the government news bureau heads say that the situation in France is unchanged.

The Germans made a night counter attack on the first division, according to this announcement, but the attack was repulsed.

It is stated that the weather is bad, the fall of rain being virtually continuous.

French Claims Some Advantages Now Won

PARIS, France, Sept. 19.—Official statement from the French war office says:

"On our left, near Noyon, we have advanced. We hold all the heights on the right bank of the River Aisne.

"On the center the Germans remain deeply entrenched.

"On the right the German Crown Prince continues to retire.

"Our advance in Lorraine is regular."

French Aeroplanes Shoot Steel Arrows?

BERLIN, Germany, Sept. 19.—(Official)—French aeroplanes are reported to be employing a new weapon in attacking the Germans in France. From the height of a mile, according to the statements here, the French aeroplanes release showers of heavy, sharp steel arrows which fall upon those beneath with great force.

Fighting Around Aisne Terribly Bloody

PARIS, France, Sept. 19.—Wounded French and German officers brought here from the battlefield agree that the fighting in these later battles is bloody beyond any precedent in modern military history. The Russian guard is reported to be almost annihilated. Many famous British regiments are known to be decimated. The headquarters of all three capitals are apprehensively awaiting the casualty lists.

The artillery fire is especially deadly, although there are also a surprisingly large number of wounded by bayonet and sword thrusts.

Both Sides Feel Exhaustion of Combat

PARIS, France, Sept. 19.—The strain upon the hostile armies battling between France and the frontier is said to be getting beyond endurance. One officer who has returned from the front likens the combat to that of two exhausted pugilists, each of whom is so fatigued that he is unable to deliver a decisive blow.

The trenches in which the defending ranks are forced to take their places are knee-deep in water and as a consequence there is much rheumatism among the soldiers.

Japan Moving Close Upon Kiaochau

TOKIO, Japan, Sept. 19.—(Official)—Troops were landed at Loashan Bay on September 18, with the fleet protecting the landing.

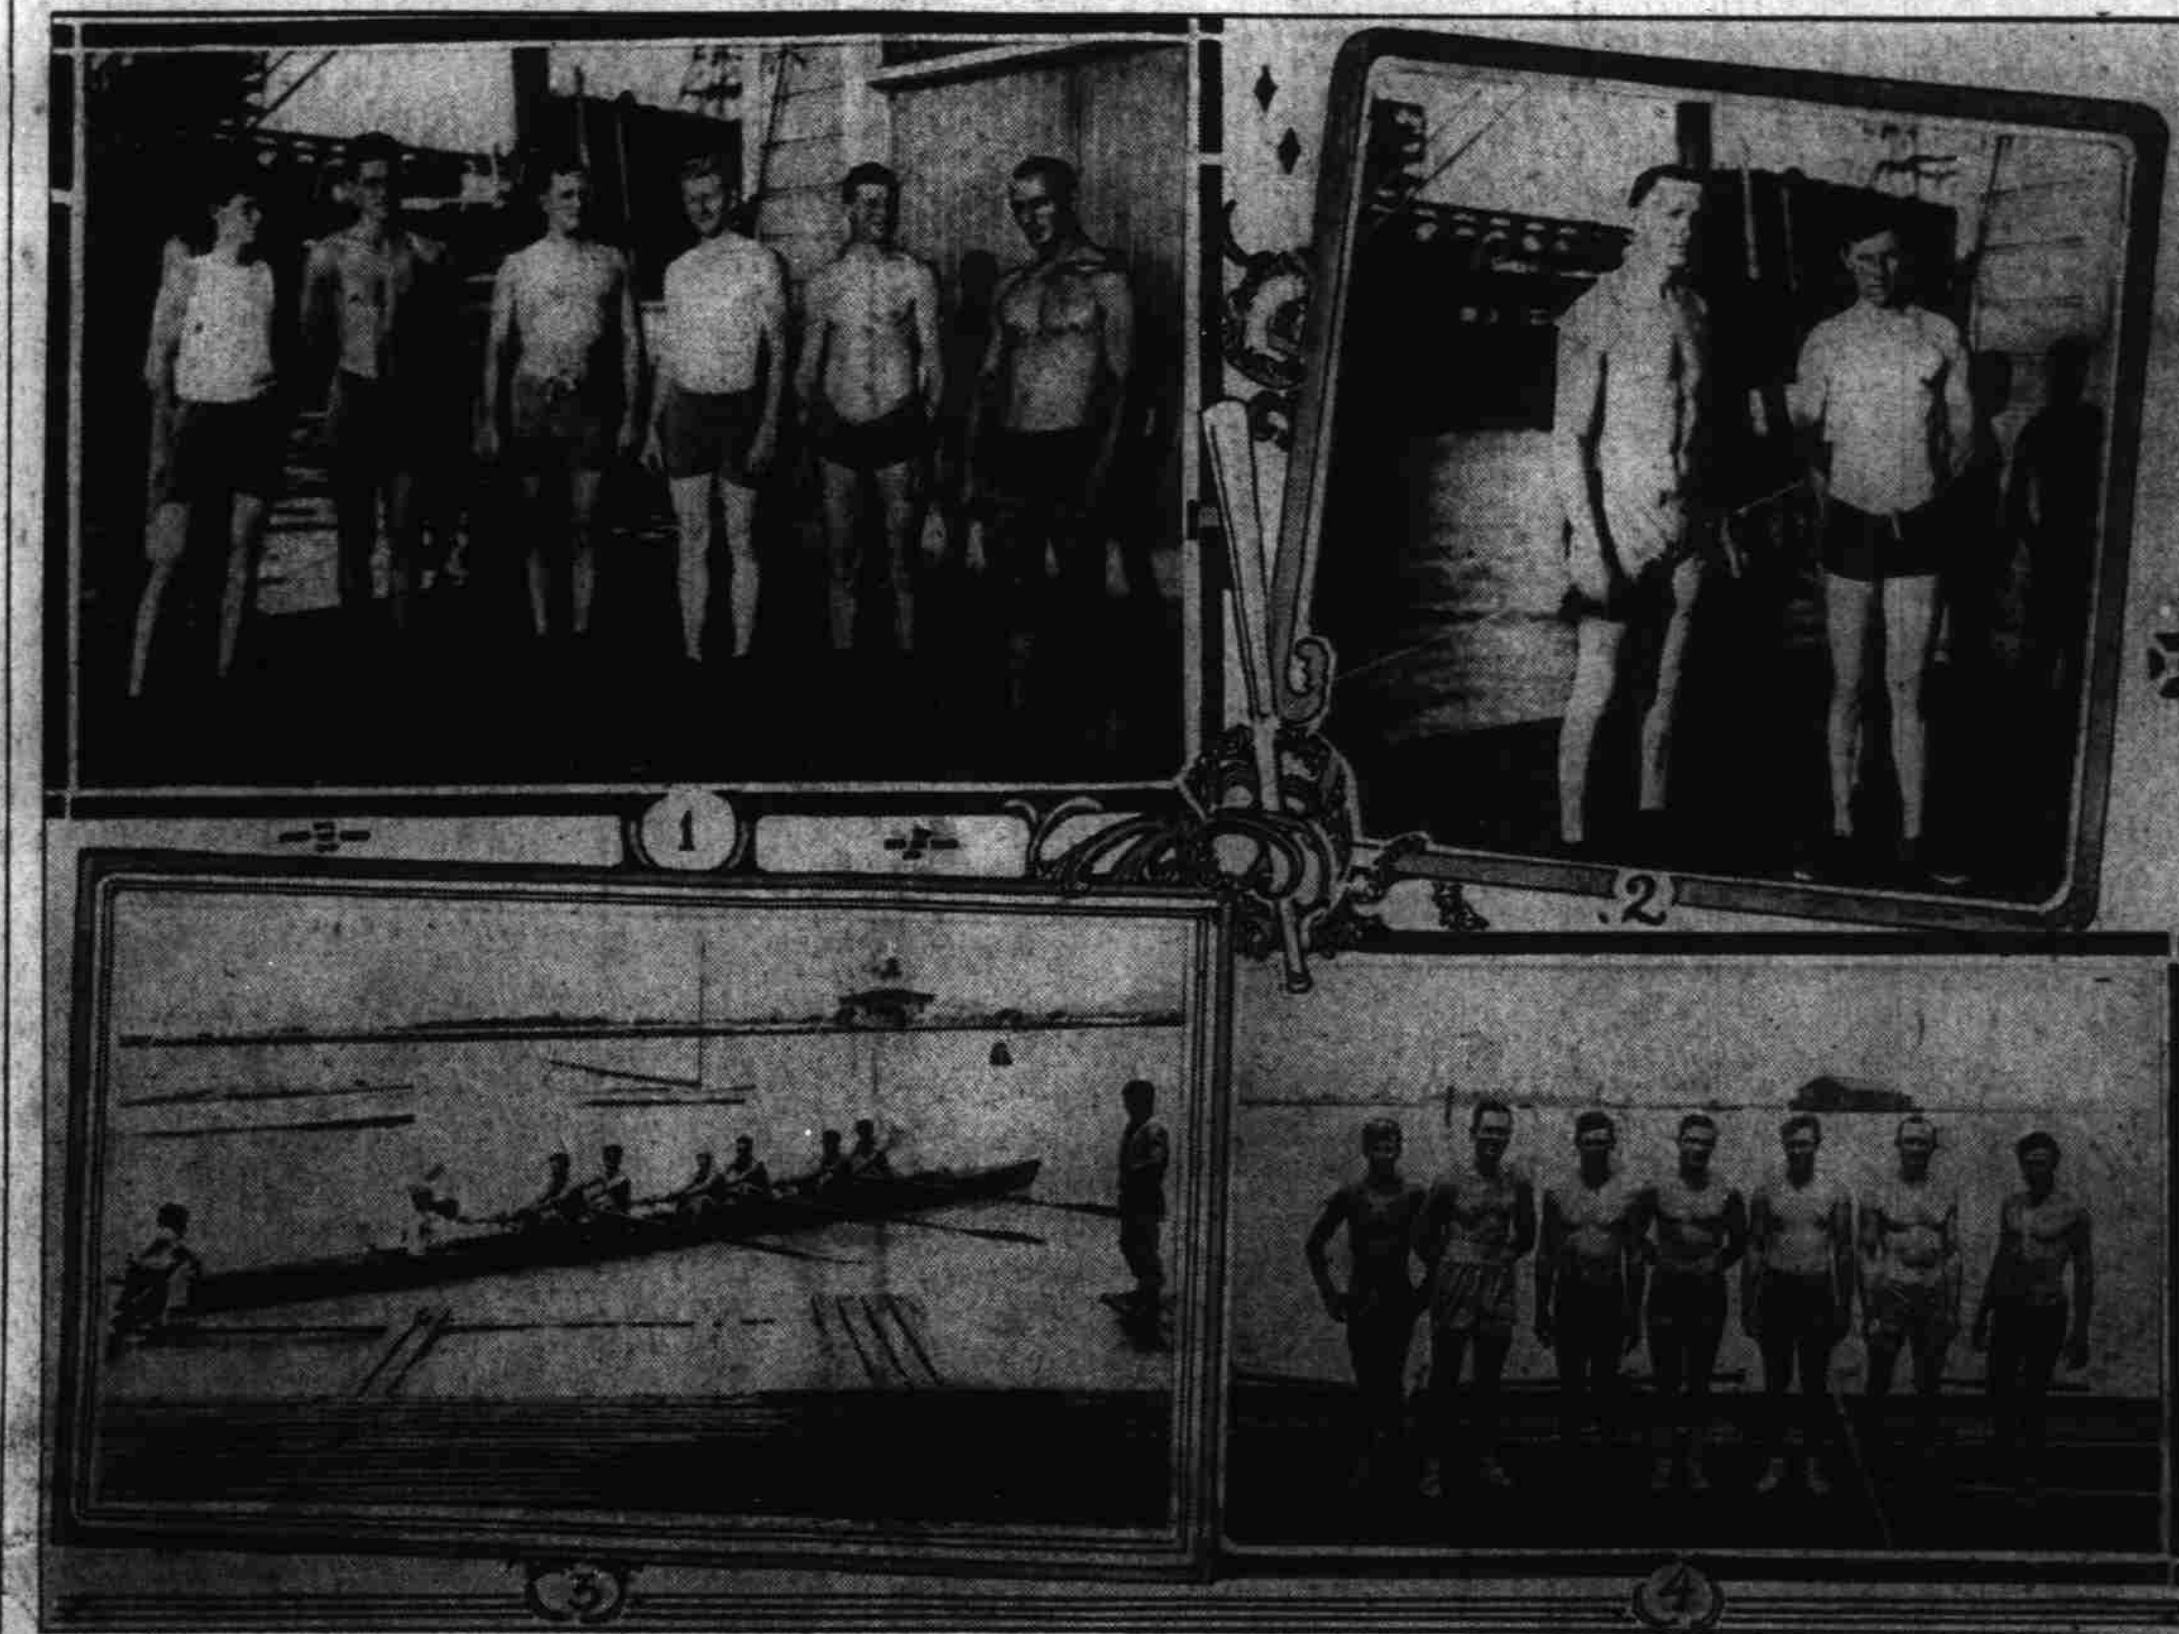

Japanese cavalry have captured Kiaochau station, the capture being made on September 17.

Battlefields Picture of Desolation

PARIS, France, Sept. 19.—Eyewitnesses report that the battlefields around the Marne make a picture of awful devastation, death and desolation. Thousands are still unburied, lying as they fell in charge or retreat or in the ranks. Burial trenches criss-cross the fields. Funeral pyres spot the hillsides and the valleys.

The battle of Aisne is known to be still bloodier than the earlier conflicts.

HEALANI BROOM ALMOST SWEEPS HARBOR CLEAN

BUILDING LAW TO BE GIVEN TEST IN COURT

Lord Young Employees Placed Under Arrest; Matter Will Be Threshed Out Monday

To bring the matter into the courts of the territory and test the legality of section 26 of the city and county building ordinance, 40 employees of the Lord-Young Engineering Company under the direction of F. W. Minor, foreman of the work, began operating on the fifth floor of the McCandless building this morning, only to be placed under arrest one hour later at the instance of City and County Attorney John W. Cathcart, who requested Sheriff Charles Rose and Deputy Sheriff Julius Asch to bring the men to the police station, where they were booked, to be released upon their own recognizance and to appear before District Magistrate Monsarrat Monday morning.

The board of supervisors represented by its majority membership including Supervisors Petrie, Wolter, Pacheco and McClellan, has declared its intention of standing pat in its support of the building ordinance and insists that the owners of the building comply with the existing ordinance or

PROMOTIONISTS WORK ON PLANS FOR STOP-OVERS

Talk by James A. Kennedy to Committee Brings Out Necessity for Action

The "one objectionable feature" which James A. Kennedy, president and manager of the Inter-Island Steam Navigation Company, discovered during his recent tour of the Orient, Australia and New Zealand, and which he commented upon at some length at a meeting of the Promotion Committee yesterday afternoon, may result in more adequate lay-over privileges being accorded those persons journeying from Australia to the coast who wish to spend a week or more in Hawaii, if the recommendations of the committee carry any weight. The committee will endeavor to make arrangements so that Australian tourists may lay over in Hawaii and then journey to the mainland on those steamers which ply only between Honolulu and San Francisco.

Mr. Kennedy returned to Honolulu on the Ventura, after a visit to Australia and New Zealand. In relating the details of his tour to the promotionists he said that the only objectionable feature which he discovered was the inability of many tourists

Filibuster Against Harbor Bill Draws Compromise And Economy Talk by Wilson

(Associated Press Service by Federal Wireless.)

WASHINGTON, D. C., Sept. 19.—Senator Theodore E. Burton of Ohio and Senator William S. Kenyon of Iowa are leading an all-day and night fight in a determined filibuster against the passage of the rivers and harbors bill.

They claim that the bill is wastefully costly and that many of the items included in the Democratic program should be eliminated.

President Wilson now intimates that the Democrats would better compromise and retrench in every way possible in view of the fact that the demands make it necessary to levy a war tax.

ROWING RESULTS AT A GLANCE.

FALL OF MAUBEUGE IS CONFIRMED

(Associated Press service by Federal Wireless.)

LONDON, England, Sept. 19.—The correspondent of the Times confirms the story of the fall of Maubeuge before the German attack.

The fortress succumbed after 12 days of bombardment. Most of the garrison withdrew.

German 16.8 Siege Guns Prove

Big Surprise of Present War

BERLIN, Germany, Sept. 19.—Photographs, claim the Germans, show that the new 16.8-inch siege guns render all fortresses obsolete. A single shell at Liege demolished reinforced concrete and steel walls, ripped open steel turrets and piled the whole mass on the defenders.

The German 16.8-inch gun was an absolute secret at the commencement of the war.

REPUBLICANS ARE TOO STRONG FOR BOURBON HEADS

(Associated Press by Fed. Wireless.)

WASHINGTON, D. C., Sept. 19.—After a struggle of 30 hours the Democratic leaders of the senate temporarily abandoned an attempt to break the Republican filibusters, taking a recess until 11 o'clock Monday morning.

MONUMENTS

Granite, Marble, Blue Stone
Coping and Iron Fence.
H. E. HENDRICK, LTD.
Tel. 2648 Merchant and Alakea.

(Associated Press by Fed. Wireless.)

ASTORIA, Oregon, Sept. 19.—One of the most terrible marine disasters ever recorded on this coast came in the foundering of the steamer Francis M. Leggett in a gale, 72 people being drowned and only three saved. The deckload of lumber shifted, the seas battered in the hatches and the vessel turned turtle and went to the bottom.

When a man marries for money the woman never gets her money's worth.

FEATURE OF DAY IS THE JUNIOR PAIR

Great Interest Shown in Navajo Victory Over Sailors of Alert

MYRTLES PUT UP GAME FIGHT; WIN ONE EVENT

Junior Pair-Oared Race Saves Myrtles From Total Defeat in Annual Contests

Show Much Promise for Next Year—Many Spectators Afloat—Rival Contingents Flaunt Gay Colors and Harbor Presents Vivid Scene—Officials in Charge Handle Program Well, Except for Minor Delay in Starting—Eighteenth Annual Celebration Closes With Dance Tonight.

With more spectators afloat, and considerably fewer ashore, than was the case last year, the eighteenth celebration of Hawaii's annual rowing event was pulled off in Honolulu harbor this morning. Ideal weather marked Regatta Day of 1914, and but for a few wind snafus across the course during the senior barge race, rowing conditions were perfect.

Again the blue and white of the Healani Yacht and Boat Club rose above the Red and White of the Myrtle oarsmen in the initial race of the day, the senior six-oared sliding barge event. In a long list of races between two clubs, one contest must be picked out as representing highest honors, and by general consent the senior six has always been considered the prize of the meet.

In the opinion of rowing experts the Healanis have turned out the best senior crew in years. Rowed smoothly, and in excellent form, the sharp bow of the Healani barge shot by the finish line some 16 lengths ahead of the rival boat. The Healanis hit a faster stroke from start to finish than did their opponents, and seemed able to maintain the pace without distress. Healanis Win Toss.

Following ancient custom the place on the course which the crews of each club were to take was decided several days ago by the toss of a coin, and again, as in the last two years, good fortune was with the Healanis. They chose the inside, or Walkiki side, which is commonly regarded as the
